

MALAK ALAZZEH

Amman-khalda | 0792979001 | malakmalazzezh@gmail.com

PROFILE

As a graduate with a degree in Computer Science, my career goal is to embark on a journey to become a proficient Data Scientist. I am eager to apply my strong foundation in data analysis, statistical modeling, and machine learning to contribute as a Data Scientist Trainee. I aspire to gain hands-on experience in solving real-world data challenges, enhancing my data science skills, and working collaboratively with seasoned professionals. I am committed to continuous learning and growth in this role.

EXPERIENCES

DATA SCIENCE TRAINEE

Data Science Academy - Orange Jordan

August 2023 - October 2023

- Participated in an intensive online data science trainee program, covering fundamental concepts in data analysis, machine learning, and data visualization.
- Utilized Python and libraries such as Pandas and Scikit-Learn to perform data preprocessing, feature engineering, and model development.
- Developed data visualization skills using tools such as Matplotlib and Seaborn to create informative plots and charts.
- Completed hands-on assignments and projects to apply theoretical knowledge to practical scenarios.

EDUCATION

The World Islamic Science and Education University - Amman

2019 - 2023

Bachelor in Computer Science

81.2 (Very Good)

SKILLS

- Knowledge in SQL, Dart, Python, Java, html programming languages.
- Detail-oriented and highly organized.
- Able to work independently and as part of a team.
- Strong communication and interpersonal skills.
- Problem-solving skills.
